

Terms & Conditions

1. The Transborder Express Smart Card (TSC) is a stored value card for use on Qcity Transit route service buses. It cannot be used as an EFTPOS or Credit card.
2. The minimum value that can be added to a TSC is \$10.00.
3. The TSC should be handled and stored carefully. Do not bend the TSC, place it near a magnetic field or expose it to extreme heat or cold.
4. The TSC is fully transferable and may be used by others if lost or stolen.
5. Lost or stolen TSCs should be reported to Qcity Transit immediately so that the TSC can be disabled. Qcity Transit takes no responsibility for the stored value remaining on a TSC not reported as missing.
6. The TSC purchase fee and any stored value remaining on the TSC are only refundable if the TSC is returned to Qcity Transit in a working condition. Furthermore, refunds will only be issued to the original cardholder, and only upon sufficient proof of identification.
7. Qcity Transit recommends that all receipts of validation be retained by the cardholder. It may not be possible to verify the stored value remaining on a TSC if the TSC is not available for presentation or is not in a working condition.
8. The Transborder Express Smart Card can be used on all Qcity Transit services.
